

# ENLIGHTEN Fellowship Program

- ❖ The **ENLIGHTEN** (*ENgaging Leaders In Global and local Health Equity in Neurology*) Fellowship is a dynamic program that provides hands-on research experience and training in **health equity** designed to reduce disparities in brain health outcomes in the U.S. and globally.
- ❖ Sponsored by a National Institute of Neurological Disorders and Stroke (NINDS) T32 award, ENLIGHTEN will support two U.S. post-doctoral fellows (clinician researchers and PhD scientists) per year for a 2-year fellowship.

Applications are now  
being accepted until  
**December 31, 2024.**

## Program Details

- **Hands-on research experience** in local or global brain health equity with one-on-one guidance from a team of mentors.
- **Tailored coursework** in health equity-related research topics.
- **Applied training** in quantitative literacy, rigor, and reproducibility.
